FUTURE-PROOFING AGED CARE

23-24 NOVEMBER 2021
9:00 AM - 12:00 PM (GMT +8)

This virtual conference will provide the opportunity to identify key trends, share exciting innovations and articulate how to harness the opportunities emerging from adaptations to population aging. The target audience of the conference is primarily municipal, provincial, and national authorities, and academics from across the People's Republic of China and policy makers from other countries in the region.

This event is co-hosted by the Asian Development Bank and the Research Center for Aging at Beijing Normal University.
